The SS& PWG group has organized the following activities since the meeting of the JCUD at NOVATECH 2016:

SPN conference

The 8th SPN conference in the series, SPN8, held in Rotterdam, 31 August – 2 September 2016, organized by Delft University of Technology. The conference was very successful with around 120 participants. Worth noting is the increase in papers on real experimental work and field monitoring rather than on results of desk studies.

The 9th SPN conference will be held in Aalborg, Denmark, August 27-30, 2019

Solids in Sewers

A new edition of the Scientific and Technical Report on Sewer Solids is planned to be published in 2017, edited by Jean-Luc Bertrand-Krajewski, Simon Tait, Jeroen Langeveld, Jes Vollertsen and Alma Schellart. Contact: s.tait@sheffield.ac.uk or a.schellart@sheffield.ac.uk

Junior Scientist Workshops

The 23rd Junior Scientist Workshop on sensor technology has been organized by Jean-Luc Bertrand-Krajewski (INSA Lyon), Francois Clemens and Mathieu Lepot (TU Delft). The 23rd EJSW focused on the application of modern sensor technology, data communication, data validation and analysis. The workshop has been held in Chichilianne (France), 15 - 20 May 2017, following the earlier workshop of 2015. The workshop consisted of field work (including sensor installation etc) on monitoring, including data validation and more traditional presentations by PhD students.
